2. Unseen Passage _____ / 4 points

Read the following text carefully. Then, answer the questions that follow.

Technology makes life easier in many ways. For example, it can help you find information quickly. You can use your phone to search for things on the internet.

You can also use technology to talk to people far away. If you have a friend who lives in another country, you can send messages and photos to each other. And if you want to see them, you can use video chat.

Another way technology is helpful is that it can do tasks for you. For example, if you don't like cleaning your house, you can buy a robot vacuum cleaner. The robot will clean the floors for you so you don't have to do it yourself.

Technology can also help you stay safe. Many cars now have cameras and sensors that can help you park. This way, you won't hit anything when you're parking your car. There are many other ways that technology can make your life easier. Can you think of any?
