

(P. 15)

1- Describe baby racoon using your own words.

It's weak, it can't stand or open its eyes.

2- Do male raccoons have any role in taking care of the babies?

No

3- Where does a raccoon mother leave her babies when she looks for food?

In the den.

4- Raccoons live in dens because they feel safe there. Explain

Because they are hidden.

5- Raccoons usually leave their dens regularly? Why and What may happen if they don't?

The mother raccoon worries that other animals might find her den / If they don't do that other animals will attack the den.
