

**Brave Helpers in an Emergency****Training Behind Firefighters Work**

Firefighters are community helpers who protect people during an **emergency**, such as a fire, car accident, or flood. Sometimes, fires spread very quickly and put people and animals in danger. This is a serious **problem** because it can be hard to rescue everyone safely. The **solution** is that firefighters use their special **training** and teamwork to act quickly, putting out fires and helping people escape safely. Firefighters must also stay strong and healthy so they can handle heavy gear and work in high heat. They are **courageous** because they face danger to save lives, even when others are running away. Firefighters show us the true meaning of bravery, teamwork, and helping others in times of need.
