Informative writing is a type of writing that **gives facts and information** about a topic. Its goal is to **teach or explain** something to the reader, not to share opinions or tell a story.

Informative writing _parts_:

It usually includes:

1. **An introduction** – tells what the topic is.
2. **Facts and details** – give clear information.
3. **A conclusion** – sums up what was learned.

Here are some **simple rules for writing a title**:

1. **Capitalize important words** – The first and last words, and all main words, should start with a capital letter.
   - Example: *My Favorite Animal* ✓
   - not *my favorite animal* ✗
2. **Keep it short** – A title should be only a few words, not a full sentence.
3. **Make it clear** – It should tell what your writing is about.
   - Example: *Life in Amman* or *My Teacher*
4. **Do not use a period (.)** – Titles don't end with punctuation.
5. **Make it interesting** – Choose words that make people want to read your writing.
